

Core B4

COREB4.4.A26

4-motor electric beauty bed with hand control, folding and removable armrests, and headrest with facial hole.

Core B4 is a **4-motor electric beauty bed** designed for salon use. The **Multiposition System** adjusts the **height from 58 to 96 cm** to facilitate access and set the working height, with a **backrest and footrest adjustable from 0 to 85°** and a **seat tilt from 0 to 11°**; the **Trendelenburg position** of 0 to 11° facilitates access during drainage treatments, while **Antigravity** distributes body weight during extended sessions. The **Hand control**, attached to one side of the base, allows you to change the height and the client's position without interrupting the treatment. The **folding and removable armrests** clear the sides for easier access, while the **extendable footrest** adjusts the support from 0 to 15 cm and the **removable footrest** frees up space for pedicures; the **headrest with facial hole**, adjustable from 0 to 120° and with an **included plug**, helps keep the neck in a natural position during face-down treatments. The static white **LED light** in the base provides ambient lighting without taking up workspace. With **white PU upholstery** and **9 cm padding**, the bed provides a supportive surface for clients during facial and body treatments. It can optionally be complemented with a pedal, roll holder, cover, and wheels.

Key features

Multiposition System

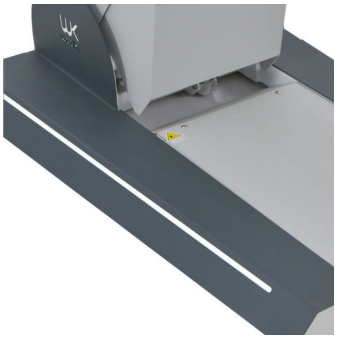
4 motors. Infinite positions.

4 independent motors control the height, backrest, footrest, and anti-gravity position of your beauty chair. Each treatment, in its exact position, effortlessly. Precise adjustments that are noticeable in every session. Total control at the service of treatment.

Antigravity

Long treatments, with less strain.

The **antigravity** position, with the back raised and legs elevated, distributes the body's weight and makes long sessions more comfortable.



LED Light

Soft light bath your cabin

LED in the base to complement the treatment ambiance.

Accessibility

Sit down effortlessly.

The **minimum height** makes it easy to get in and out of the chair or bed comfortably and gently, even for people with reduced mobility.

Trendelenburg Position

Total tilt. Optimal access.

Trendelenburg position for complete tilt of the chair-bed. Ideal for **drenage treatments**, with a greater working angle for the professional.

Handcontroller

Precise adjustment.

From the control, **height, backrest, footrest, and tilt** are adjusted.

Headrest with facial hole

Maximum comfort for any type of treatment.

Extensible and removable headrest with facial hole and **plug included**. Ideal for face-down treatments. Relaxed neck, natural posture.

Folding and removable armrests

It adapts to you when you need it.

Armrests **folding and removable** that facilitate access and adjust to each treatment. More mobility for you, more comfort for the client.

Extensible footrest

Comfortable legs, limitless treatments.

Extensible footrest that expands support for longer legs. Comfort that adjusts, not the other way around. A small detail, a big difference in every session.

Removable footrest

Free space when the treatment needs it.

Removable footrest that can be taken off completely when the protocol needs more free space, for example in pedicure.

Key specifications

Dimensions and structure

Number of motors	4
Load capacity	180 kg
Thickness of padding	9 cm
Total length	185 cm
Width without armrests	62 cm
Width with armrests	85 cm
Minimum height	58 cm
Maximum height	96 cm
