

# Omega 3.5™

MAGNIFIER

Fact Sheet

The Omega 3.5 is a compact and lightweight magnifier with a 9 cm acrylic lens offering 5 dioptres (2.25X) magnification. The bright daylight LEDs circling the lens provide optimum lighting for precise inspection and attention to detail - choose the amount of light needed with 4 levels of brightness. The head joint easily rotates and the adjustable arm has 2 flexible sections to allow for exact positioning with a long reach of 68 cm (27"). The arm is covered in silicon for low-maintenance and separates into 2 parts for easy storage into its carry-bag. The slim clamp takes up minimal space on your workstation and its flat side fits in-between desks. The lens can be covered when only light is needed. Carry-bag included.

## MAGNIFIER

## FEATURES

- Compact magnifier head with 9cm (5D / 2.25X) Lightweight acrylic lens
- Arm can be separated into 2 parts for easy storage
- Rotating head joint to allow accurate positioning
- Long reach silicon covered arm with two flexible sections
- Removable, slim profile clamp
- 4 brightness levels
- Carry-bag with shoulder strap

## SPECIFICATIONS

### Product information

Weight	1.5 kg (3.3 lb)
Colour	White / Light Grey
Lens size	9cm (3.5")
Lens Magnification	5D (2.25X)
Lens Material	Acrylic
Maximum Reach	68cm (27")

### Light output

Light source	57 SMD LEDs
Lumens	557
Lux at 15 cm (6")	7,000
Colour temperature	6,000 K
CRI	80+
Energy consumption	6.5W

### Packaging information

Height	19.5cm (7.68")
Width	56.2cm (22.13")
Depth	7.8cm (3.07")
Packed weight	1.8kg (3.96 lb)
Products per master carton	6

### CARRY-BAG INCLUDED
