** To maintain the material's properties, it's necessary to clean the surface regularly. For this, use warm soapy water and a microfiber cloth. Do not use cleaning solutions containing alcohol, ketones, xylene, acetates, or solvents. Any stains, spills, or dirt should be cleaned promptly to avoid permanent staining.*

DISTINGUISH YOUR SPACE WITH COLOR

Color plays an important role in defining the identity of your clinic. It's more than visual appeal. Color can transform your space into something you won't just see, but you will feel, too.
