

## Fact sheet

### Description

The Queen IX Comfort Cosmetic Couch has 4 motors, which allow you to adjust the couch height, the inclination, and the back and foot sections. Positions are adjusted using the remote control. The armrests are detachable. There is a face cut-out in the head section under the detachable neck cushion. The head and foot sections are extendable and detachable. The top layer of the padding is viscose foam. The PU leather upholstery is medical-grade certified. Rotate (swivel) option.
